

IMPORTANT - SAFETY ADVICE

We are very pleased to reopen this church to welcome you back for private prayer and quiet reflection

For your own safety and to protect others, PLEASE

- do not enter if you have any Covid-19 symptoms or should be self-isolating
- use the hand-gel as you enter and again as you leave the church
- maintain safe social distancing at all times
- stay within the boundaries marked by the red & white striped barrier tape
- do not touch any surfaces you do not need to
- avoid touching your face, eyes, nose or mouth if you can
- sit only in the open, marked pews at the front
- when you leave turn over the notice on the pew you have used. This will notify others not to sit in the same place until we have been able to clean the area
- notify us if you develop Covid-19 symptoms within two weeks of your visit here

We have tried to make this space as safe as we can - we rely on you to complete the process by following these simple principles

We hope you find your visit helpful
